

Winnipeg Fringe BYOV Venue Ideas

If your company is considering submitting a Bring Your Own Venue application and you are looking for a possible venue, please find below a list of BYOV venues from previous years **as well as venues that are new this year**. We have included some of the information on each venue, but if you are interested in using one of these spaces, please contact the venue directly to confirm the 2020 availability, rental rate, technical specifications and services provided by the venue.

If you contact a BYOV owner and you determine that the space meets your needs and the owner is willing to rent you the space, you can let the owner know you'd like to tentatively book the venue and you can confirm the booking once your BYOV application has been approved and accepted by the Fringe.

BYOV VENUES that have been used in the past

City of Winnipeg Parks

There are several public park spaces in downtown Winnipeg (City, Provincial, Federal) and some have been used as BYOV venues over the years. If you are interested in using a park space as a BYOV please contact Fringe staff at performers@winnipegfringe.com so that we can go over your concept and any issues that may arise from your specific location.

Site Specific BYOV's

There are many other possible venue locations that you may be considering for your site specific BYOV project. The easiest type of space that can be set-up as a BYOV venue is one with an existing occupancy permit which means it has an official capacity and all fire and safety requirements are in place.

Over the years non-traditional venues have been created in spaces that do not have occupancy permits and if you are considering this option we recommend you begin your planning very early so that you can secure a temporary occupancy permit prior to the Program Copy Form deadline which will be around the end of April. The festival has seen BYOV venues closed by the City of Winnipeg just prior to the festival due to the inability to secure an occupancy permit.

If you are planning to use a venue that will need to apply for an occupancy permit, please contact the Festival Manager at performers@winnipegfringe.com so that we can verify that it will fit within our guidelines as an appropriate and safe venue and help you start the permit process.
